EDUCATION

2025
- Learning Splunk - LinkedIn Learning
- K6 - Udemy
- Performance Testing with JMeter - Cursera
- Introduction to Containers w/ Docker, Kubernetes & OpenShift - IBM

2024
- Software Engineering - Post-Graduate Degree - University of Galway
- Leading Remote Teams - Grow Remote

2023
- Certified SAFe® 5 Practitioner - Scaled Agile Inc

2022
- Tester Foundation Level (CTFL) - ISTQB®

2022
- API Testing Foundations - LinkedIn Learning
- E2E JavaScript Testing With - LinkedIn Learning

SKILLS

Automation & Tools:
- Playwright, Cypress, Pytest, TestComplete, Postman, JMeter, K6

Languages & Frameworks (design and build):
- Python, JavaScript, Java TypeScript, and MongoDB

DevOps & Platforms:
- Docker, GitHub Actions, Azure DevOps, Kubernetes

Testing & Methodology:
- Shift Left, Functional/Regression Testing, UAT, Agile, BDD

PROFILE SUMMARY

Radosław Lisowski, known as Rado. A dedicated Software Tester with 7 years of experience, ISTQB certification and a postgraduate degree in Software Engineering. Often described as the "glue" in teams, fostering collaboration through strong communication skills and a team-oriented mindset.

Excelling in both manual and automated testing. Hands-on experience in crafting test plans, executing test cases, reporting defects, seeing issues trough. My approach blends critical thinking with a focus on user experience software reliability and shift left approach. constantly expanding knowledge and skills with "can do" aptitude.

WORK EXPERIENCE

Carelon Global Solution Ireland (remote)   2022 - PRESENT
Sr SDET

- Heavily contributed to the design and implementation of a scalable automation framework for API testing of web applications using PyTest, significantly improving test coverage and reducing regression testing time by 95%.
- Co-developed a robust, reusable API automation template that was to be adopted across multiple teams, streamlining onboarding and standardizing test practices organization-wide.
- Spearheaded the development of comprehensive end-to-end UI tests using Playwright with JavaScript, enhancing test reliability and user experience validation, leading to a 30% and growing reduction in UI regression time.
- Actively led story refinements and facilitated Three Amigos sessions, aligning QA, development, and product perspectives early in the workflow, which fostered collaboration, reduced ambiguities, and improved overall delivery quality.

Retail Solutions (hibrid)   2018 - 2022
Software Tester - Automation Engineer

- Automating testing for desktop and web apps - TestComplete, Postman
- Training and induction of new testers
- Maintenance of all automated tests in Azure
- Responsible for all testing activities in the company
- Manual testing of desktop, web apps, and APIs
- Writing test cases for retesting, new features, and regression
- Managing software releases
- Writing documentation
- Hardware testing (point-of-sale related devices)
